

Technical Architecture

TEAM ID	NM2023TMID02700
DATE	4 November 2023
PROJECT NAME	Building A Website Using Canva

To create the architecture, you'll build a master list of content for the site, define the main sections of the site, assign the content to each section, and then break the content into individual pages and name them. Search for 'Website' in Canva. Choose from one of the professionally designed templates to open the free website builder.
